"Peirce College has changed my life. I am grateful to have worked with the fantastic staff, faculty, and students. Peirce gave me a second chance to go to college and learn while working full-time and raising two young children. As soon as I received my accounting degree, I was promoted to a staff accountant position. And then after my master's degree was conferred, I received another offer paying more money. My time at Peirce has taught me that I could do anything I put my mind to."
